

Krazydad's Puzzles Sample

Type: Star Battle (published in New York Times as "Two Not Touch")

Subscribers: 0 (launching soon)

About Paper Puzzle: Do you love puzzles, but are tired of screens? Instead, imagine solving a logic puzzle on paper and basking in the glory of your accomplishment. Simply choose your puzzle master to follow and we'll send you mail each week with a daily puzzle.

Star Battle Rules

Place stars on the grid with the following rules:

- Each row must contain 2 stars
- Each column must contain 2 stars
- Each bolded region must contain 2 stars
- The stars can't touch each other, not even diagonally

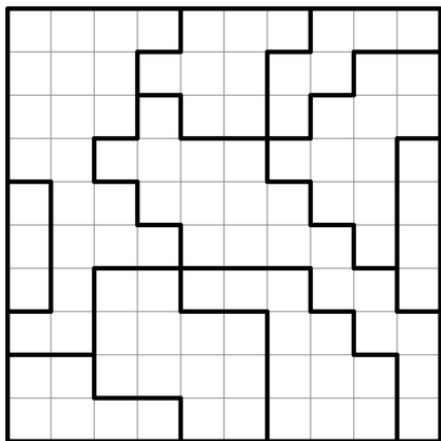

About Your Puzzle Master

Krazydad is me, Jim Bumgardner. I'm a programmer / musician / artist / puzzle constructor / teacher with a passion for making software art and software toys. From 2010-2020, I was working at Walt Disney Imagineering. I am now doing web development for the State of California.

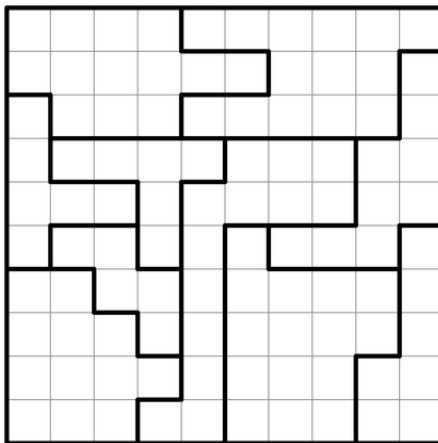

I created the Krazydad website in 2005 to offer free puzzles to the public. My mission is to provide puzzles to under-served groups that need them, including prisoners, pensioners, home-schoolers, hospitals, churches, and classrooms. There are currently about two million individual puzzles on the site, and over sixty unique varieties.

I create my puzzles with the aid of software that I have written personally. My puzzles have been appearing daily in The New York Times (as "Two Not Touch") since April, 2020. My Sudoku puzzles are distributed by Andrews McMeel Syndication and appear online and in print. I have sold puzzles to a few other publications, including Games magazine, Bloomberg Business Week, and Radio Times. I've also authored a number of puzzle books for PuzzleWright Press, Ulysses Press, and Tiny Lobster.

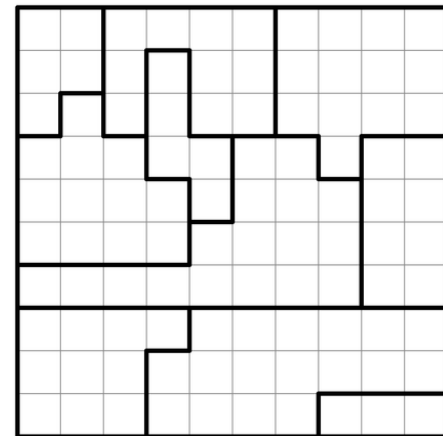

I hope you'll join my daily puzzles here at Paper Puzzle! I plan to focus on my most popular puzzle: Star Battle. This is the one I publish in the New York Times and it is also the most popular game on LinkedIn under the name "Queens." It will start on the easy end early in the week and progress to quite difficult on the weekend.
